Novelties and General Information

Dear customer, herewith we inform you about our current price list, which is effective from 01.01.2021.

Novelties 2021:

- **New size: 22“ frame height 45,5 cm**, facilitates an easier transition to 24“ bicycles. In exchange, size 22“ frame height 44 cm was taken off range.
- **New handlebar width for team cycling:** 190 mm with artistic cycling shape, extra narrow for door cyclists

These novelties and plenty more little changes are resulting from your indications and observations. Of course, we appreciate every single hint and constructive criticism further on. Only this way ensures that our constant efforts to improve the material are successful. Thank you very much for your support.

A brief review – the most important changes in 2017:

- All oversize complete bikes are now equipped with a tall headset nut.
- **New size: 26“ oversize frame height 48 cm.** 25“ artistic bicycles were taken off range in exchange.
- **New size: mini artistic bike 20“ frame height 22 cm** with special features for our smallest athletes.

The following paragraph points out some important aspects of our terms and conditions. A detailed elaboration is available at Langenberg.bike (German only). This is a summary:

- The statutory warranty will apply according to German law.
- There is a **guarantee for frames and forks of 12 months** as of manufacturing date if you let Langenberg.bike perform an inspection within the first six months after the date of delivery. This does neither cover damages, which are affiliate to personal negligence (like running the bike against a wall) nor parts that experience an ordinary wear like axles, bearings, chains, tires, and pedal rubbers. Shipping for repaired items of a valid complaint is free. Costs for you accrue merely for the dispatch of the malfunctioning item.
- Our **delivery time for bicycles resp. frames amounts six to twelve weeks** depending on the current order situation.
- Please control the content of the order confirmation carefully to avoid obscurity in advance.
- Packaging and dispatch costs are due for all deliveries.
- No shipping to Switzerland.
- All Prices are indicated in Euro incl. 19 % value added tax.
- You can choose between the following payment options:
 - Advance Payment (account is enclosed with the parcel)
 - Direct debit authorization, minus 2 % discount on consignment (account is enclosed with the parcel)
- **We do not deliver on account!**
- Receipt of returns only after previous agreement. No receipt of not prepaid shipment.
- If you relinquish a certain part (e.g. pedals) at the ordering of a complete bicycle, it is only possible to discount 75 % for the component off the price for a complete bicycle.
- **All pictures shown are for illustration only and may differ from actual product.**
- **All information is subject to change.**

Title to the goods shall remain vested in the company and shall not pass to the buyer until the purchase price for the goods has been paid in full and received by the company.
Technical changes reserved.

This is an excerpt of our opportunities to repair malfunction of a bicycle:

- Replacement of any tube at frame or fork
- Powder coating in (almost) every requested color
- New lacing of used hubs/ rims
- Repair of thread damages at cranks
- Replacement of saddle covers

Usually, prices for repairs at frame or fork cannot specified blanket. Therefore, we kindly ask you to send us a picture of the damage via Email together with your repair request. You will receive a rough estimate in a short time.

In general, a yearly inspection of your bicycle (like a car) is highly recommended.

During an inspection we

- Check for damages,
- Justify bearings and drive,
- Substitute defective components as appropriate.

A restoration of bicycles is possible as well!
